Re: Pricing Uncertainty

Given the current global oil crisis, along with economic and political instability, we are expecting freight and petroleum based raw materials to be driving up the landed cost of many of the products we supply.

Please confirm pricing with your sales representative prior to estimating any larger projects. Cascade Aqua-Tech will do everything we can to mitigate these cost increases in the short term but may need to adjust our pricing with limited notice.

If you require any further details, please contact the office or your local sales rep directly anytime. Thank you for your continued support.

Regards,

Cascade Aqua-Tech
